

Acceptable Use Policy

Vantage Cloud Labs

Document Information

Item	Value
Version	1.0
Effective Date	12 July 2026
Policy Owner	Aryan Neupane
Review Cycle	Annual

1. Purpose

The purpose of this Acceptable Use Policy (AUP) is to define the acceptable use of Vantage Cloud Labs' information systems, networks, devices, applications, cloud services, and data. This policy aims to protect organizational assets, reduce cybersecurity risks, and ensure that all users utilize company resources responsibly and in accordance with legal, regulatory, and business requirements.

2. Scope

This policy applies to:

- All employees
- Contractors and consultants
- Temporary staff and interns
- Third-party users granted access to company systems
- All company-owned or managed devices, networks, cloud services, applications, and information assets

3. Acceptable Use

Users are expected to use company resources responsibly and professionally.

The following activities are considered acceptable:

- Company systems and devices shall be used primarily for authorized business purposes.
- Limited and reasonable personal use is permitted provided that it:
 - Does not interfere with work responsibilities.
 - Does not consume excessive company resources.
 - Does not violate any company policy or applicable law.
- Users must protect company information from unauthorized disclosure or misuse.
- Users must comply with all applicable information security policies and procedures.
- Sensitive information must only be accessed by authorized personnel with a legitimate business need.

4. Prohibited Activities

The following activities are strictly prohibited:

- Installing unauthorized software or applications on company devices.
- Sharing usernames, passwords, MFA tokens, or other authentication credentials with any individual.
- Accessing, storing, or transmitting company information using unauthorized personal devices or unapproved cloud storage services.
- Disabling, bypassing, or attempting to circumvent security controls, including antivirus software, endpoint protection, firewalls, encryption, or Multi-Factor Authentication (MFA).
- Downloading or distributing malicious software.
- Accessing illegal, offensive, discriminatory, or inappropriate content using company systems.
- Using company resources for unauthorized commercial activities, political campaigning, harassment, or illegal purposes.
- Attempting to gain unauthorized access to systems, networks, or information.

5. Monitoring

Vantage Cloud Labs reserves the right to monitor, log, and review the use of company systems, networks, devices, email, internet access, and other technology resources in accordance with applicable laws, regulations, and the organization's Privacy Policy.

Users should have no expectation of personal privacy when using company owned systems, except where prohibited by law.

6. User Responsibilities

All users are responsible for:

- Protecting company-issued devices from theft or unauthorized access.
- Locking their workstation when unattended.
- Reporting lost or stolen devices immediately.
- Reporting suspected security incidents or policy violations within **24 hours** of discovery.
- Completing mandatory security awareness training.
- Complying with all organizational information security policies.

7. Enforcement

Violations of this policy may result in disciplinary action, including:

- Verbal or written warning
- Suspension of access to company systems
- Revocation of user privileges
- Employment termination
- Civil or criminal legal action where applicable

8. Review

This policy shall be reviewed annually or whenever significant organizational, technological, legal, or regulatory changes occur.
